SUMMARY

Healthcare IT candidate pairing 2+ years of hands-on Epic EHR experience with an MS MIS (UIC, 4.0 GPA, Healthcare Information Systems concentration). Projects span clinical machine learning, multimodal NLP/CV pipelines, and API-driven documentation validation; certified across Snowflake, AWS, and Google Cloud analytics stacks.

EDUCATION

University of Illinois Chicago — Chicago, IL
Master of Science, Management Information Systems — Expected Dec 2026
GPA: 4.0 • Concentration: Healthcare Information Systems
Relevant coursework: Healthcare Information Management & Analytics, Advanced Database Management, Data Mining for Business, Statistics for Management

University of Illinois Chicago — *Bachelor of Arts, Psychology* — May 2020

PROJECTS

Dataset Distillation for Vehicle Damage Classification — CCC-sponsored capstone, Fall 2026

- Designed the experiments, ran every reported PyTorch run, and gave most sponsor presentations on a 3-person team
- On held-out test data, a distilled set at 9.7% of CarDD's training data recovers 84% of full-data macro-F1 and beats herding-selected real images by 3.0–7.3 points (ConvNet, 5 of 5 seeds); at or above them on ResNet-18 and VehiDE

Parkinson's Disease Voice Screening — IDS 506, Spring 2026

- Built a binary classifier distinguishing Parkinson's patients (n=40) from controls (n=41) on 165 acoustic features (Parselmouth, librosa); evaluated 4 model families (LR, RF, SVM, XGBoost) × 4 feature sets with stratified 10-fold CV
- Identified a 19-year age confound (age alone AUC 0.864); reported the voice-only CV AUC 0.775 (Mann-Whitney-filtered) over the age-inflated 0.912; odds ratios with 95% CIs, Hosmer-Lemeshow calibration, 8 peer-reviewed sources

DocDefend+ — Clinical Documentation Defensibility Platform

- Built a full-stack web app integrating the Claude API to validate whether E/M documentation justifies assigned billing codes before claim submission; encoded Epic documentation structure and ICD-10/CPT rules into the validation logic

EXPERIENCE

University of Illinois Chicago — Information & Decision Sciences, Chicago, IL
Graduate Hourly (Teaching Assistant) — Aug 2026 – Present

- Graded 193 assignments and exams for IDS 401 (Java programming) and IDS 314 (AI Essentials); wrote the IDS 401 rubrics, compiled and tested every Java submission against the answer key, and proctored a 45-student exam

ScribeAmerica — Advocate Christ Medical Center, Oak Lawn, IL
Chief Medical Scribe — Aug 2021 – Sep 2023

- Documented 15+ patient encounters per shift in Epic EHR across high-volume ED and inpatient settings, ensuring complete and accurate medical records; developed deep knowledge of Epic clinical data structure, charge capture, order workflows, and ICD-10/CPT documentation standards
- Promoted to Chief Scribe; trained 3 new scribes on clinical documentation standards and provider-specific Epic workflows, supervising 2 as direct reports
- Selected for AI-documentation pilot program; produced throughput analysis demonstrating a 20% productivity gain vs baseline scribe workflow

CERTIFICATIONS & HONORS

SnowPro Associate: Platform (Snowflake) • AWS Generative AI Practitioner • Google Cloud BigQuery • Google Cloud Looker • Building with the Claude API (Anthropic) • Top 20 Regional, SANS AWS Skills to Jobs CTF (7,498 pts)

TECHNICAL SKILLS

Languages/ML: Python (PyTorch, scikit-learn, XGBoost, pandas), SQL, R, Java, JavaScript/TypeScript
Cloud/BI: SQL Server (SSIS, SSAS, SSRS), Snowflake, BigQuery, Looker, Tableau, AWS, GCP
Healthcare/tools: Epic EHR, HL7/FHIR, HIPAA, ICD-10/CPT; Git, Docker, Jupyter, React, Next.js
